Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

GENERAL INDEX, SECOND SERIES, VOLS. 1-12, (1899-1911)

	Vol.	Page
ALLARDICE, R. E. Note on the Dual of a Focal Property of the Inscribed Ellipse	2	148
——— On Some Curves Connected with a System of Similar Conics	3	154
——— On a Linear Transformation, and some Systems of Hypocycloids	5	169
AMES, L. D. Evaluation of Slowly Convergent Series	3	185
ARCHIBALD, R. C. The Cardioid and Tricuspid: Quartics with Three Cusps	4	95
ARZELA, CESARE. Note on Series of Analytic Functions.	5	51
BARNUM, H. H. Abel's Theorem and the Addition Formulæ for Elliptic Integrals	11	103
BERRY, W. J. Some Theorems Concerning Systems of Linear Partial Differential Expressions	12	27
BIRKHOFF, G. D., and VANDIVER, H. S. On the Integral Divisors of $a^n - b^n$	5	173
BIRKHOFF, G. D., A Theorem Concerning Uniform Convergence	6 (Apr.)	90
——— On the Solutions of Ordinary Linear Homogeneous Differential Equations of the Third Order	12	103
BLICHFELDT, H. F. Proof of a Theorem Concerning Isosceles Triangles	4	22
BLISS, G. A. The Geodesic Lines on the Anchor Ring	4	1
——— The Solutions of Differential Equations of the First Order as Functions of Their Initial Values	6(Jan.)	49
——— On the Inverse Problem of the Calculus of Variations	9	127
BÔCHER, MAXIME. Examples in the Theory of Functions	1	37
——— The Theory of Linear Dependence	2	81
——— Some Applications of the Method of Abridged Notation	3	45
——— On the Uniformity of the Convergence of Certain Absolutely Convergent Series	4	159
——— Linear Differential Equations with Discontinuous Coefficients	6(Apr.)	49
——— A Problem in Analytic Geometry, with a Moral	7	44
——— Introduction to the Theory of Fourier's Series	7	81
——— Another Proof of the Theorem Concerning Artificial Singularities	7	163
——— On the Small Forced Vibrations of Systems with One Degree of Freedom	10	1
——— On Semi-Analytic Functions of Two Variables	12	18
BOUTON, C. L. Problems in the Theory of Continuous Groups	1	93

	Vol.	Page
——— Nim, a Game with a Complete Mathematical Theory	3	35
——— Discussion of a Method for Finding Numerical Square Roots	10	167
BRADSHAW, J. W. The Logarithm as a Direct Function. With an Introduction by Professor W. F. Osgood.	4	51
BRENKE, W. C. On the Convergence and Differentiation of Trigonometric Series	8	87
BROWN, E. W. On Tide Currents in Estuaries and Rivers	1	68
BUCHANAN, H. E., and HILDEBRANDT, H. T. Note on the Convergence of a Sequence of Functions of a Certain Type	9	123
BYERLY, W. E. The In-and-Circumscribed Quadrilateral	10	123
——— Approximate Representation	12	128
CARMICHAEL, R. D. Note on Multiply Perfect Numbers	7	153
——— Multiply Perfect Numbers of Three Different Primes	8	49
——— Multiply Perfect Numbers of Four Different Primes	8	149
——— On the Classification of Plane Algebraic Curves Possessing Fourfold Symmetry with Respect to a Point	9	53
——— Another Proof of a Theorem in Multiply Perfect Numbers	9	180
——— On the Geometric Properties of Quartic Curves Possessing Fourfold Symmetry with Respect to a Point	10	81
COOLIDGE, J. L. On the Intersection of Two Conics having a Common Focus	1	173
——— The Continuity of the Roots of an Algebraic Equation	9	116
——— A Theorem Concerning Equal Ratios	9	181
——— The Gambler's Ruin	10	181
——— Some Circles Associated with Concyclic Points	12	39
CONVERSE, H. A. On a System of Hypocycloids of Class Three Inscribed to a given 3-line, and some Curves Connected with it	5	105
CONWELL, G. M. The 3-Space PG (3, 2) and its Group	11	60
COREY, S. A. The Development of Functions	1	77
——— Note on Stirling's Formula	5	185
CURTISS, D. R. A Proof of the Theorem Concerning Artificial Singularities	7	161
——— On Certain Theorems of Mean Value for Analytic Functions of a Complex Variable	8	118
DICKSON, L. E. A Generalization of Fermat's Theorem	1	31
——— An Elementary Exposition of Frobenius's Theory of Group-Characters and Group-Determinants	4	25
——— Determination of all Groups of Binary Linear Substitutions with Integral Coefficients taken Modulo 3 and of Determinant Unity	5	140

	Vol.	Page
——— Application of Groups to a Complex Problem in Arrangements	6	31
——— On the Real Elements of Certain Classes of Geometrical Configurations	6	141
——— Note on Cubic Equations and Congruences	12	149
DINES, C. R. The Harmonics of a Stretched String Vibrating in a Resisting Medium	12	153
——— A Method of Investigating Numbers of the Forms $6^k s \pm 1$	10	105
DOWLING, L. W. On the Conformal Representation of Certain Isosceles Triangles upon the Upper Half-Plane	6(Jan.)	69
DUNKEL, OTTO. Sufficient Conditions for Imaginary Roots of Algebraic Equations	10	46
——— Generalized Geometric Means and Algebraic Equations	11	21
DUVAL, E. P. R. Graphs of the Functions π and Ψ	5	64
EMCH, ARNOLD. Illustration of the Elliptic Integral of the First Kind by a Certain Link-Work	1	81
——— An Application of Elliptic Functions to Peaucellier's Link-Work (Inversor)	2	60
ENGBERG, C. C. A Special Quadri-Quadric Transformation of Real Points in a Plane	4	89
EPSTEEN, SAUL. Rationality Groups in Prescribed Domains	12	49
——— The Differential Equation of the Third Order with a Quadratic Relation between the Integrals	12	185
ESCOTT, E. B. Cubic Congruences with Three Real Roots	11	86
FITE, W. B. Note on the Continued Product of the Operators of any Group of Finite Order	6	7
——— Concerning the Invariant Points of Commutative Collineations	11	169
FORD, W. B. On the Determination of the Asymptotic Developments of a Given Function	11	115
GAINES, R. E. A Graphical Method of Deducing the Criteria for the Nature of the Roots of Cubic and Quartic Equations	1	111
GALE, A. S. Wiener's Theory of Displacements, with an Application to the Proof of Four Theorems of Chasles	2	1
——— On a Generalization of the Set of Associated Minimum Surfaces	4	107
——— Examples of Non-Applicable Surfaces having the Same Gaussian Curvature at Corresponding Points	5	66
GILMAN, FRANK. The Ballistic Problem	6(Apr.)	79
——— Evaluation of the Probability Integral	9	167
——— Theory of Floating Tubes	11	1
GLEASON, R. E. A Simple Method for Graphically Obtaining the Complex Roots of a Cubic Equation	11	95

	Vol.	Page
——— On a Method for the Summation of Series	12	45
GRANVILLE, W. A. On the Invariants of a Quadrangle under the Largest Subgroup having a Fixed Point, of the General Projective Group in the Plane	3	43
GREENHILL, A. G. The Mathematical Theory of the Top	5	1
——— The Mathematical Theory of the Top (continued)	5	67
HAMILTON, ALSTON. The Irreducible Case of the Cubic Equation	1	41
——— Brilliant Points of a Family of Concentric Spheres	2	97
HARRIS, R. A. On Two-Dimensional Fluid Motion through Spouts Composed of Two Plane Walls	2	73
HASKINS, C. N. A Geometrical Interpretation of the Generalized Law of the Mean	9	141
——— On a Second Theorem of the Mean	9	173
HATHAWAY, R. M. On Some Points in the Theory of the Hypergeometic Function expressed as a Double Circuit Integral	2	137
HAYASHI, T. Relations among Some Cyclotomic Cubics	12	189
HEDRICK, E. R. On Three-Dimensional Determinants	1	49
——— On the Characteristics of Differential Equations	4	121
——— On a Function which Occurs in the Law of the Mean	7	177
——— A Peculiar Example in Minima of Surfaces	8	172
——— A Smooth Closed Curve Composed of Rectilinear Segments with Vertex Points which are Nowhere Dense	9	163
HEWES, L. J. Necessary and Sufficient Conditions that an Ordinary Differential Equation Shall Admit a Conformal Group	11	49
HILDEBRANDT, T. H. See BUCHANAN.		
HILL, G. W. Application of Tchébychef's Principle in the Projection of Maps	10	23
HOOK, E. A. Multiple Points on Lissajous's Curves in Two and Three Dimensions	4	67
HUNTINGTON, E. V. The Complex of Axes of a Central Quadric Surface	2	8
——— Communication Concerning Mr. Ransom's Mechanical Construction of Conics	4	50
——— The Continuum as a Type of Order: an Exposition of the Modern Theory. I-IV.	6	151
——— The Continuum as a Type of Order: An Exposition of the Modern Theory. V-VI. With an Appendix on the Transfinite Numbers. (*See erratum on back of Index to Volume* 7.)	7	15
——— The Fundamental Laws of Addition and Multiplication in Elementary Algebra	8	1
HURWITZ, W. A. Note on the Definition of an Abelian Group by Independent Postulates	8	94

	Vol.	Page
——— Note on Certain Iterated and Multiple Integrals	9	183
HYDE, E. W. On a Surface of the Sixth Order which is Touched by the Axes of all Screws Reciprocal to Three Given Screws	2	179
JACKSON, W. H. The Integral Roots of Certain Inequalities	11	128
——— The Theory of Shadow Rails	11	141
——— Periodic Decimal Fractions	11	166
KASNER, EDWARD. A Relation between the Circular and the Projective Transformations of the Plane	5	99
KELLOGG, O. D. A Necessary Condition that all the Roots of a Polynomial be Real	9	97
KENNELLY, A. E. Two Elementary Constructions in Complex Trigonometry	5	181
——— The Harmonic Analysis of the Semicircle and of the Ellipse	7	49
——— Expression of Constant and of Alternating Continued Fractions in Hyperbolic Functions	9	85
LAMBERT, P. A. A Method of Solving Linear Differential Equations	11	185
LEHMER, D. N. Concerning the Tractrix of a Curve, with Planimetric Applications	1	14
——— Rational Triangles	1	97
——— Multiply Perfect Numbers	2	103
——— A Theorem in Continued Fractions	2	146
——— On Maximum and Minimum Values of the Modulus of a Polynomial	8	175
LENNES, N. J. Remarks on a Proof that a Continuous Function is Uniformly Continuous	6(Jan.)	86
LING, G. H. A Geometric Discussion of the Absolute Convergence of a Series with Complex Terms	5	151
LOVETT, E. O. The Condition that a Linear Total Differential Equation be Integrable	1	175
LUNN, A. C. The Foundations of Trigonometry	10	37
MACLOSKIE, G. A Method of Solving Determinants	1	74
——— A General Method of Evaluating Determinants	6	30
MACDONALD, W. E. See RISLEY.		
MACNEISH, H. F. On the Determination of a Catenary with Given Directrix and Passing Through Two Given Points	7	65
——— Concerning the Discontinuous Solution in the Problem of the Minimum Surface of Revolution	7	72
MCCLINTOCK, EMORY. A Simplified Solution of the Cubic	2	151
MASCHKE, H. A Geometrical Problem Connected with the Continuation of a Power-Series	7	61

	Vol.	Page
MARSHALL, WILLIAM. On a New Method of Computing the Roots of Bessel's Functions	11	153
MASON, MAX. Curves of Minimum Moment of Inertia with Respect to a Point	7	165
MESSICK, J. F. Cubic Curves in Reciprocal Triangular Situation	9	29
MILLER, G. A. Note on Netto's Theory of Substitutions	1	71
——— On a Special Class of Abelian Groups	2	77
——— On the Groups Generated by Two Operators of Order Three whose Product is also of Order Three	3	40
——— Note on the Group of Isomorphisms of a Group of Order p^m	3	180
——— A New Proof of the Generalized Wilson's Theorem	4	188
——— Note on Sylow's Theorem	5	187
——— On the Subgroups of an Abelian Group	6	1
——— Groups of the Fundamental Operations of Arithmetic	6(Apr.)	41
——— Note on the Possible Number of Operators of Order 2 in a Group of Order 2^m	7	55
——— Note on the Use of Group Theory in Elementary Trigonometry	8	97
——— The Groups Generated by Two Operators such that Each is Transformed into its Inverse by the Square of the Other	9	48
MOORE, C. L. E. Circles Orthogonal to a Given Sphere	8	57
MOORE, C. N. Note on the Roots of Bessel Functions	9	156
MOORE, E. H. A Fundamental Remark Concerning Determinantal Notations with the Evaluation of an Important Determinant of Special Form	1	177
——— Concerning du Bois-Reymond's Two Relative Integrability Theorems	2	153
——— A Generalization of the Game called Nim	11	93
MOREHEAD, J. C. Extension of the Sieve of Eratosthenes to Arithmetical Progressions, and Applications	10	88
MORLEY, FRANK. The "No-Rolling" Curves of Amsler's Planimeter	1	21
MORITZ, R. E. Extension of Hurwitz's Proof for the Transcendence of e to the Transcendence of π	2	57
——— On a General Relation of Continued Fractions	4	179
——— Some Physical Solutions of the General Equation of the n-th Degree	6(Apr)	64
MOULTON, F. R. The Straight Line Solutions of the Problem of n Bodies	12	1
